

Accessing School Hotspots

The Ga Department of Education has provided 10 Hot Spots for the use of our students. These devices will be located in public areas and may be utilized for downloading and uploading of school work or other educational purposes. Below you will find information detailing how to access these hotspots. This list will be updated as more locations are established. If you have difficulty establishing a connection, please send an email to remote.learning@socialcircleschools.org

- Connect student computer or device to schoobusinternet(**followed by 4 numbers**) You will use these numbers as part of the password later.
- Once you have done this, you should be redirected to a password screen. If you aren't, please open a browser window and go to mybusinternet.com
- When asked for PW enter access(**followed by the last numbers in the name of the network.**)
- You may now use this connection to access the internet
