Skills to Practice for Fifth Grade

READING

- **Locate main idea and details in informational passages-** What is the author trying to tell me? What details support what the author is telling me?
- **Text structure & Features-** How is the text set up? Cause and effect? Sequencing? How can features like a table of contents, photographs, captions, a glossary, etc help me understand the text?
- **Theme & Inferencing -** What lesson is the author trying to teach me? What can I learn from the story? How can I take what I am reading in a text and combine it with my prior knowledge to make a theory about what I think is true in the passage.?

MATH

- **Place value to decimals**
- **Fractions and decimals**
($\frac{1}{3} + \frac{1}{4} = 7/12$) and ($12.3 + 20.9 = 33.20$)
- **Fluency with basic multiplication and division facts** (0-12)
- **Practice RCUPS strategy with basic word problems-** "R= read the problem, C- circle the important numbers and words, U= underline what the question is asking, P=plan your strategy/ or draw a picture, S=solve and check."
